

Installing AWM 2.4.1 as a new application

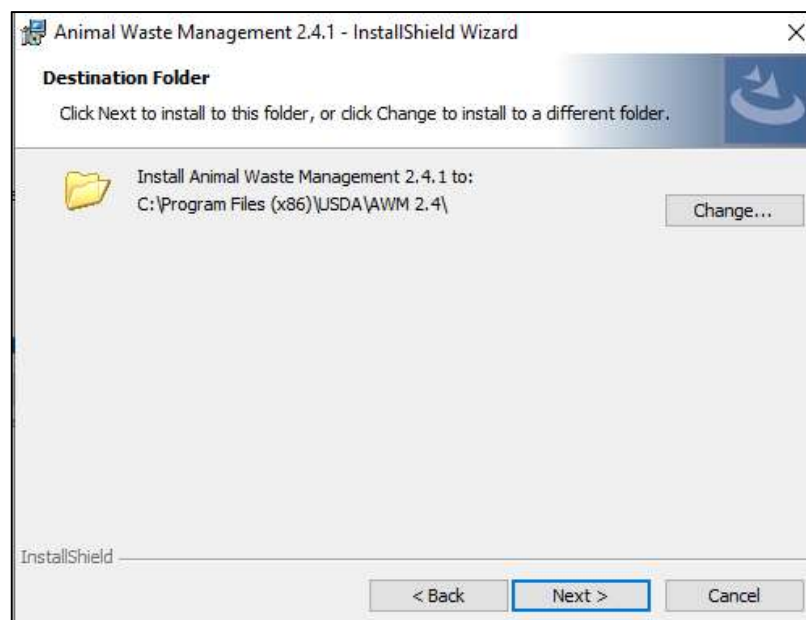

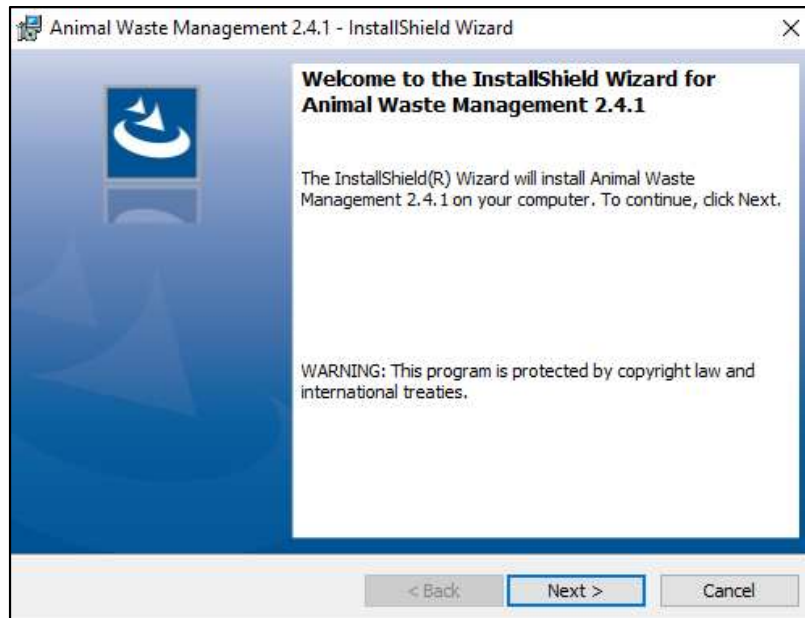

Click the AWM Installer link under the AWM Documents heading on the Software tab of the AWM website. A message bar will appear at the bottom of the browser window as shown below.

The screenshot shows a web browser window displaying the USDA Natural Resources Conservation Service website. The URL in the address bar is <https://www.nrcs.usda.gov/wps/portal/nrcs/detailfull/national/landuse/crops/npm/?&cid=stelprdb1045812#database>. The page title is "Animal Waste Management Software". The sidebar on the left lists navigation options under "Land Use", including "Cropland", "Erosion", "Nutrient & Pest Management", "Resources & Publications", "Farmland Protection Policy Act", "Forestry", "Range & Pasture", and "Urban Agriculture". The main content area is titled "Animal Waste Management Software" and includes a "Software Download & Installation" section. This section contains information about the AWM 2.4 Software, including its history, features, and installation instructions. It mentions that the software is available from the website and provides a short URL: <http://go.usda.gov2cr3>. The instructions specify that the software should be installed outside the "Program Files" folder and that administrative privileges are required. A "For External Users (TSPs):" section provides further details on installation. A "For NRCS Internal Users:" section also provides information. The "AWM Documents" section lists links to the "AWM Installer", "AWM Database 2.91", "AWM Database replacement instructions", "AWM Installation Guide", and "AWM User Guide (pdf format)". A "AWM Project Example (*.awm) Files:" section lists three examples: "Example 1 (Multiple Structures up to 3 Management Steps)", "Example 2 (Single Structure with Additional facility design)", and "Example 3 (Evaluating an existing structure)". At the bottom of the browser window, a Windows message bar is visible, asking "What do you want to do with AWM24.msi (12.3 MB)?" and providing buttons for "Run", "Save", and "Cancel".

Click Run to begin the installation of AWM 2.4.1.

On the Welcome screen, click Next to proceed with the installation of the Animal Waste Management application or click Cancel to exit.

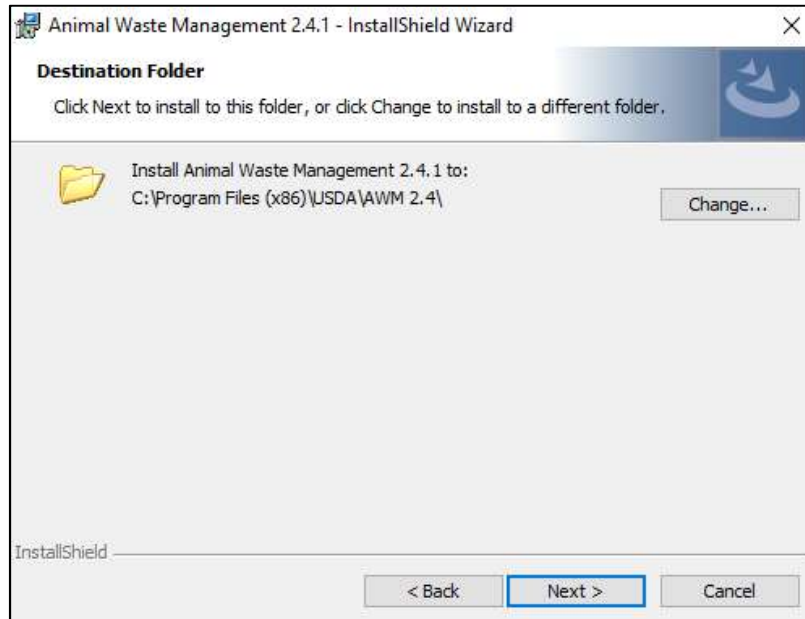

The Destination Folder example screen below above the default installation location for AWM 2.4.1.

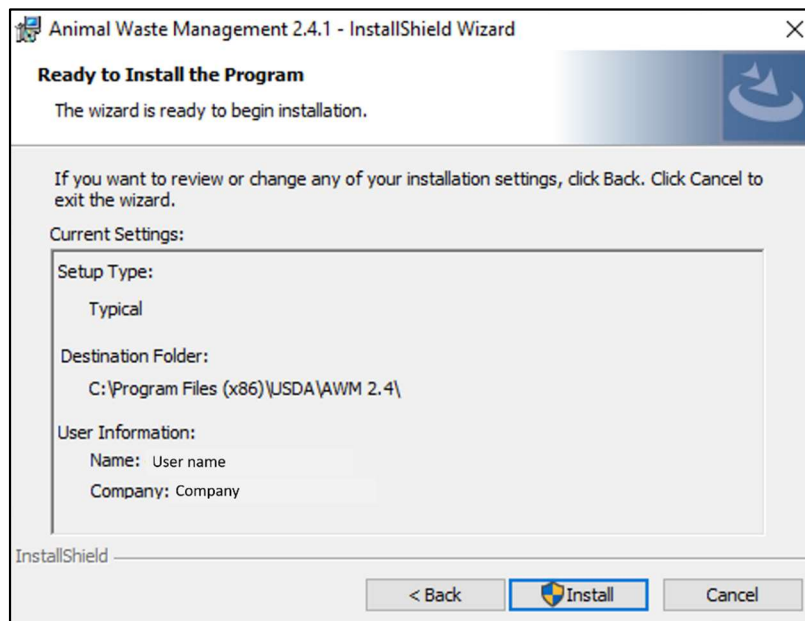

Default installation location is: C:\Program Files\USDA\AWM 2.4.1

On the Destination Folder screen:

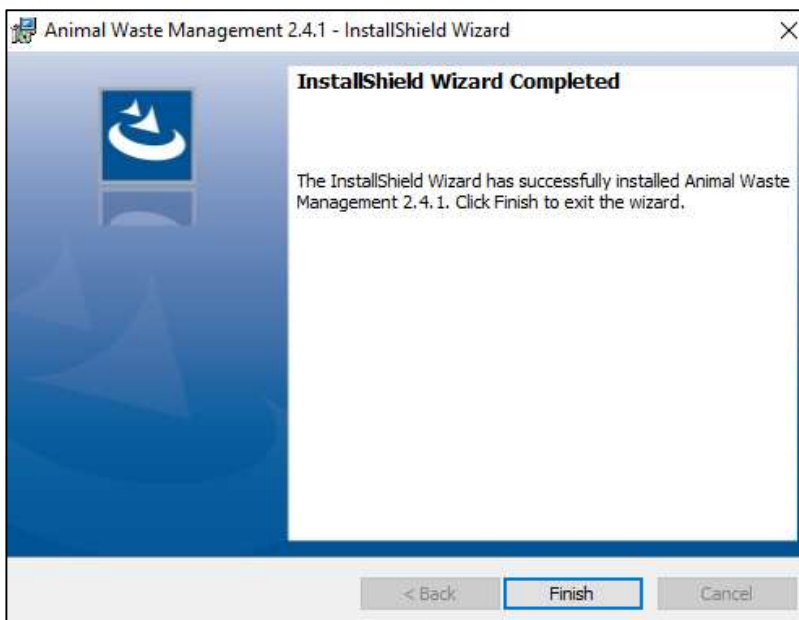

1. If you need to install **AWM 2.4.1** into a different folder location, use the **Change...** button and select another installation folder location (see **Changing The Installation Location** on page 6).
2. Click **Next** to continue.

The InstallShield Wizard example screen shown below will show a summary of the installation settings. Click Install to continue.

The InstallShield Wizard prepares the installation process as shown above. Please wait while the application installs.

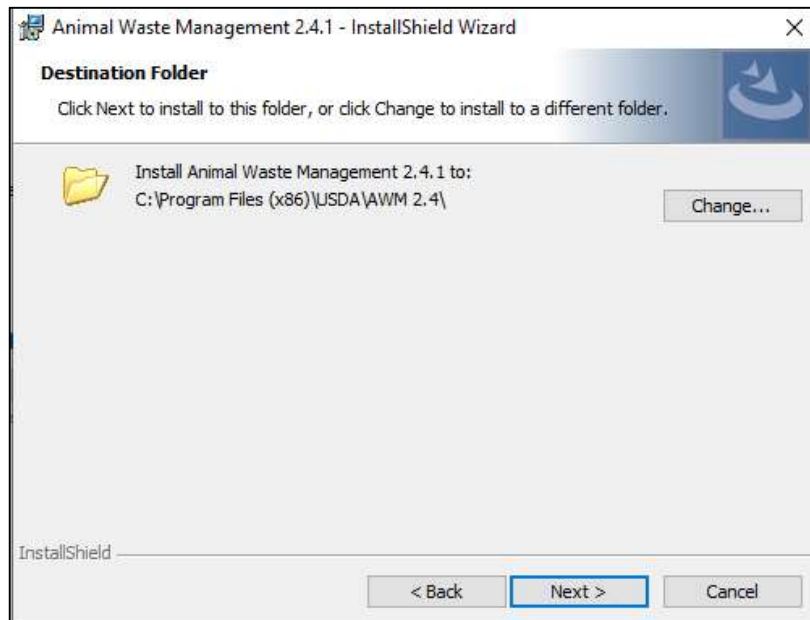

On the InstallShield Wizard Completed screen, click **Finish** to complete the installation process.

To start AWM 2.4.1, go to **Start**, scroll to **Engineering Applications** and click to open the folder then select **AWM 2.4** (see Starting AWM for more information).

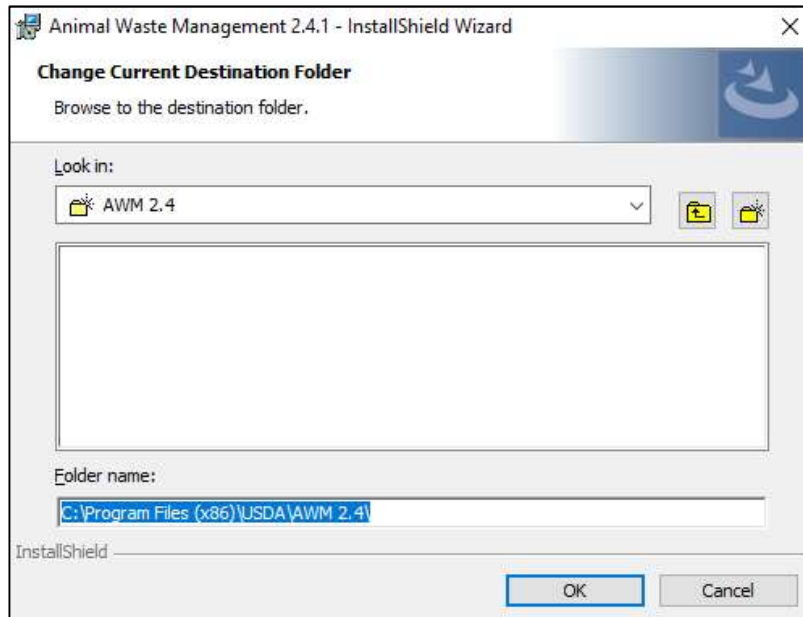

Changing The Installation Location

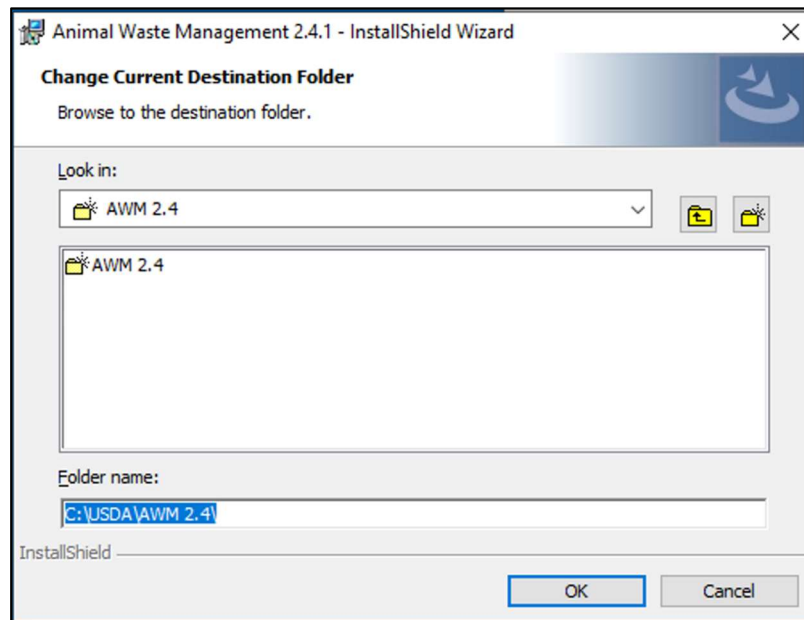

The default installation location for AWM 2.4.1 is: C:\Program Files (x86)\USDA\AWM 2.4.

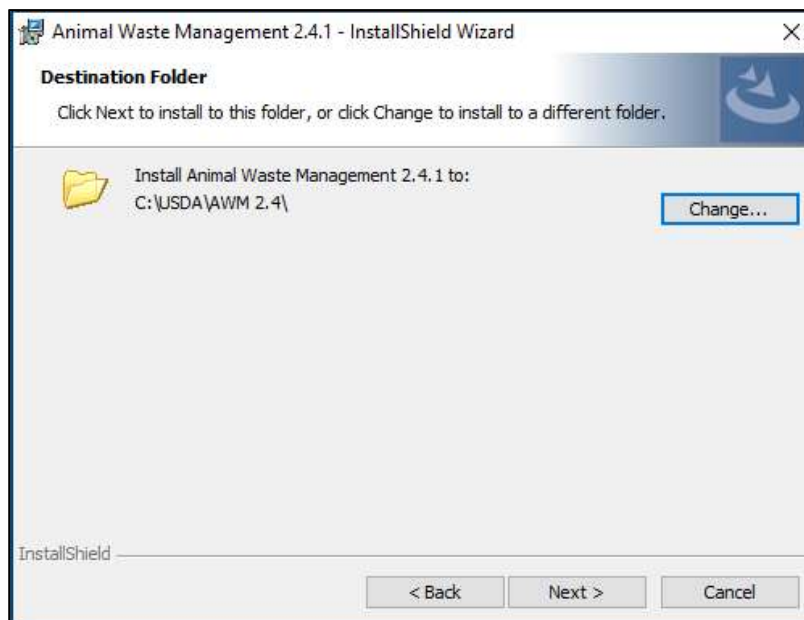

The Destination Folder example screen shows the default installation location for AWM 2.4.1. Click the **Change...** button to see the example Change Current Destination Folder screen:

Change the **Folder name**: default location as necessary.

The above example shows the changed Folder name: location to be C:\USDA\AWM 2.4
Click the **OK** button to proceed.

The Destination Folder example screen now shows the changed installation location for AWM 2.4.1.
Click the **Next** button to continue.
